**Red River Valley
Rural Electric Association
Energy Efficiency
Rebate Program**

Updated January 3, 2019

2019 HVAC & Water Heater Rebate Guidelines

Rebate Program Objectives

- Promote the installation of energy efficient equipment for Red River Valley members' homes and small commercial locations within the Co-op's service territory.
- Improve the return on investment to RRV members.
- Educate members on energy efficiency opportunities and benefits.
- Utilize the program to continue positive public relations with RRV members.

Types of rebates available

- New Geothermal Installation
- Geothermal Retrofit
- Air Source Heat Pump
- GTE Water Heater (Gas to Electric)
- NC Water Heater (New Construction)

Red River Valley reserves the right to inspect any installations upon request prior to issuing any rebate check to the member. Red River Valley has budgeted \$50,000 designated to the 2019 HVAC and Water Heater Rebate Program and will not exceed the stated amount. If the 2019 Rebate Program reaches this cap, Red River will no longer issue rebates for the 2019 year. Rebates will be available on a first come first serve basis.

New Geothermal Installation

- One rebate per physical address per physical year
- \$1050/ton (up to 5 Tons)
- Minimum Efficiency Requirements (based on 2nd stage values):
 - Closed Loop: ≥ 15.9 EER & ≥ 3.3 COP (Desuperheater not required)
 - Open Loop: ≥ 18.0 EER & ≥ 3.6 COP (Desuperheater not required)
 - Additional \$225 per unit with desuperheater
- Member must:
 - Complete 2018 RRV Rebate Form (page 4)
 - Provide a copy of invoice from contractor and installed equipment
 - Provide a copy of the AHRI Certificate of Product Ratings

Geothermal Retrofit

- One rebate per physical address per physical year
- \$500 (up to 5 Tons)
- Minimum Efficiency Requirements:
 - Closed Loop: ≥ 3.0 EER Increase & ≥ 3.3 COP (Desuperheater not required)
 - Open Loop: ≥ 3.0 EER Increase & ≥ 3.6 COP (Desuperheater not required)
- Member must:
 - Complete 2018 RRV Rebate Form (page 4)
 - Provide a copy of invoice from contractor and installed equipment
 - Provide a copy of the contractors Manual J
 - Provide a copy of the AHRI Certificate of Product Ratings

Air Source Heat Pump

- One rebate per physical address per physical year
- \$200/ton (up to 5 Tons)
- Minimum Efficiency Requirements:
 - ≥ 15.0 SEER & ≥ 8.0 HSPF
- Member must:
 - Complete 2018 RRV Rebate Form (page 4)
 - Provide a copy of invoice from contractor and installed equipment
 - Provide a copy of the AHRI Certificate of Product Ratings

GTE Water Heater (Gas To Electric)

- One rebate per physical address per physical year
- \$250/location
- Minimum Efficiency Requirements:
 - ≥ 0.9 Energy Factor & ≥ 16 R-Value
- Member must:
 - Complete 2018 RRV Rebate Form (page 4)
 - Provide a copy of invoice from contractor and installed equipment

NC Water Heater (New Construction)

- One rebate per physical address per physical year
- \$250/location
- Minimum Efficiency Requirements:
 - ≥ 0.9 Energy Factor & ≥ 16 R-Value
- Member must:
 - Complete 2018 RRV Rebate Form (page 4)
 - Provide a copy of invoice from contractor and installed equipment

Installing Contractor Rebate

- \$20 rebate for each qualifying install
 - Install must meet requirements for the respected rebate category
 - Contractor must:
 - Be a licensed installer
 - Be insured

2019 HVAC & Water Heater Rebate Form

****Must be a REA Member to Qualify****

*****Rebate Program capped at a \$50,000*****

<u>Geothermal</u>	<u>Air Source Heat Pumps</u>	<u>Water Heaters</u>
<ul style="list-style-type: none"> • \$1050/ton ≥ 15.9 EER & ≥ 3.3 COP • Geo-Geo: \$500/ton increase ≥ 3.0 EER & ≥ 3.3 COP 	<ul style="list-style-type: none"> • \$200/ton ≥ 15 SEER & ≥ 8.0 HSPF 	<ul style="list-style-type: none"> • New Construction: \$250/location with Energy Factor ≥ 0.90 & R-Value ≥ 16 • Gas to Electric: \$250/location

Rebate claims must be made within 1 month of installation.
